

# Dessert Dash

## ***What is it?***

The Dessert Dash is a fun way to interact, get moving and compete at the same time.

On your table there will be a numbered flag and a Bid Sheet. This is an opportunity for everyone at your table to work together by combining bids for a TOTAL bid. You want your table to submit the highest bid so that you get first pick for ONE of the delicious, desserts on display at the Dessert Table.

Bid Sheets will be picked up while you are enjoying dinner. Highest bid gets to 'dash' first.

## ***Now What?***

Make sure you have at least one or two desserts from the Dessert Table in mind as something your table would enjoy. Choose one person from your table to be your table's designated 'dasher'.

Once the Dessert Dash begins, the table with the highest total bid will be announced and 'dash' to the dessert table to plant their flag in their desired choice. The table with the second highest bid will 'dash' a few seconds later, third highest total bid 'dashes' a few seconds after that, and so on!

Upon completion, desserts will cut, plated, and delivered to your table.

***If you want a piece of dessert from another table you can always ask, but they may make you pay a price!***
